Morrell reported work on the 3rd Party Guidelines Project has stalled and suggested a special meeting of the Education Committee on Wednesday, August 17, 2016 (11am East/8am PT) to discuss this project. Executive Director was instructed to send a conference call invitation to the entire committee.

In discussion regarding the Road to GREAT Technician project, the Committee instructed Morrell and Saunders to work with the Executive Director and craft an invitation to be emailed to the complete list of project stakeholders identified in the project document, <http://www.nastf.org/files/public/NASTF%20Projects/Road2GreatTechs/Road2GREATtechs.pdf>. The committee suggested a special meeting of all stakeholders on this topic alone be set in coordination with ASE/NATEF (Trish Serratore).
