Nile Cornelison

Craig Johnson

Jason Kozak

David Kusa

Gene Lopez

Tracy Renee

Don Setterlof

Donny Seyfer

Rob Morrell, Independent Co-chair

Virginia Whelan

Mark Warren

Skip Potter, Exec Dir

Morrell convened the meeting at 11:01am (ET) and roll call was conducted.

Saunders led a discussion to determine the next steps in the ***Building a Road to GREAT Technicians*** project. Following general discussion about the list of “problems” to be solved on the Road to GREAT Technicians, the Committee determined an outline of the scope of the project needs development; then parse the project into sections “buckets” that groups can be assigned to research and develop plans for discussion and solutions. Also sections need to be rated into short term projects that may be implemented quickly and long term goals that will take time, research, discussion, and agreement for implementation

Chesney alerted the Committee to the feature session at NASTF’s Spring 2017 General Meeting, titled, “The Road to GREAT Technicians: Let’s Get Started,” from which one or more “buckets” could evolve.

The meeting was adjourned at 11:54am (ET)
